WATER AVAILABILITY VERIFICATION PERMIT
$89 fee required for individual water system review

Prior to the issuance of a building permit for any building requiring potable water, evidence of an adequate water supply must be provided by the applicant to the Grays Harbor County Planning and Building Division. Please complete to verify water availability for an individual water system.

INDIVIDUAL WATER SYSTEMS

❑ **One** ❑ **Two Residential Connections**

Name_____

Mailing Address_____
Street City State Zip

Telephone #_____

1st) Parcel #_____ 2nd) Parcel #_____

Has this property been the subject of a Washington State Department of Natural Resources (DNR) Class I, Class II, or Class III Forest Practices Approval (FPA) development moratorium during the past 6 years? ☐ Yes ☐ No

Complete Sections A & B if a water right is required and/or has been issued (5,000 or more gallons pumped per day or a surface/spring water source). Otherwise complete only Section B.

SECTION A (Individual water system requiring a Water Right)
Use of water for this building is authorized by Water Right Permit number_____, which has not been canceled or relinquished **(attach copy of the certificate).**

SECTION B (Individual water system without a Water Right)
The source for this building does not require a Department of Ecology water right. I have attached copies of the following documents in order to verify the availability of water.

❑ 1) A signed well log from a licensed well driller.
❑ 2) A scaled plot plan.
❑ 3) Written results for the bailer test, air line test or pump test, which was performed for a minimum of one hour, verifying a minimum yield of **400 gallons per day per residence.** Usually found on the well log.
❑ 4) Bacteriological water test results. Less than one year from date of collection.
❑ 5) Subdivision with individual wells created after January 1, 1995, need to allow for each lot a 100 foot protective zone within the lot lines or obtain restrictive covenants for the portion of the protective zone encumbering adjacent properties in accordance with WAC 246-272. Minimum set back from public road rights-of-way is 50 feet.
❑ 6) 2-Party wells. Recorded written agreement provided.
❑ 7) Nitrate test results.
