Management of such property under this chapter shall be supplemental to authority otherwise granted by law and Grays Harbor County retains all powers now or hereafter granted by law for the management of county property and county tax title property.

(Ord. 84 § 2.20.010, 1978)

(Ord. No. 398, § 1, 6-6-2011)

2.20.020 Authority to manage and improve lands.

The board of county commissioners shall manage county property and county tax title property and make such improvements thereon which it determines will enhance the value of such lands, or will enhance the amount of income derived therefrom.

(Ord. 84 § 2.20.020, 1978)
(Ord. No. 398, § 2, 6-6-2011)

2.20.030 Definitions.

As used in this chapter:

"County property" means all real property and all tangible personal property owned by or in which Grays Harbor County has an interest.

"Tax title property" means all property acquired by the county for lack of other bidders at a tax foreclosure sale.
(Ord. 84 § 2.20.030, 1978)

2.20.040 Authority to sell timber and minerals.

A. Whenever it appears to the board of county commissioners that it is for the best interests of Grays Harbor County, the appropriate taxing districts and the people thereof that any part or parcel of property, whether real, personal, or mixed, belonging to the county, including tax title property, should be sold, the board shall sell and convey such property, under the limitations and restrictions and in the manner hereinafter provided.

B. In making such sales the county may sell any timber, mineral, or other resources on any land owned by the county, including tax title property, separate and apart from the land in the same manner and upon the same terms and conditions as provided in this chapter for the sale of real property; provided, any such timber, mineral, or other resources not exceeding two thousand five hundred dollars (\$2,500.00) in value may be sold as personal property in the manner provided by this chapter.
(Ord. 84 § 2.20.040, 1978)

2.20.050 Sales of personal property--Advisability and manner.

Subject to the limitations of this chapter, the board of county commissioners is authorized to determine the propriety and advisability of selling and the manner and location of conducting sales of personal property.
(Ord. 84 § 2.20.050, 1978)

2.20.060 Notice of sale.

When the board of county commissioners elects to sell property, they shall advertise to the extent, which they deem necessary to affect an advantageous sale. Such advertising for real or personal property with a value in excess of five hundred dollars (\$500.00) shall include publishing a notice in a legal newspaper at least once a week for two consecutive weeks, the last notice to appear no more than five days prior to the date of the auction or bid opening. An advertisement for sale of county property must particularly describe the property to be sold and designate the day and hour and the place of sale. When real property is to be sold, the advertisement of sale must contain both the street address, if available, and the legal description of the part and parcel. If real property is offered for sale on other than a cash basis, the terms must be stated in the advertisement. In addition, sales of tax title property must comply with RCW 84.64.270, as now enacted or as subsequently amended.

(Ord. 84 § 2.20.060, 1978)

2.20.070 Sales of property--Public auction.

Except as otherwise provided for in this chapter, all sales of real and personal property shall be at public auction to the highest responsible bidder except when:

- A. County property is sold to a governmental agency;
- B. The board of county commissioners determines an emergency to exist;
- C. County real property is traded for real property of similar value, or when county personal property is traded for personal property of similar value;
- D. County personal property is traded in on the purchase of another item of personal property;
- E. Where, after any real or personal property is duly advertised and offered at public auction no responsible bid is submitted thereon, such real or personal property may be sold by negotiation upon such terms as may be agreed upon and for such consideration as may be deemed adequate by the board of commissioners; or
- F. The value of the property to be sold is five hundred dollars (\$500.00) or less.

The county board of commissioners may, if it deems such action to be in the public interest, reject any and all bids, either written or oral, and withdraw the property from sale. The county may then, within twelve (12) months of such rejection, sell such withdrawn property by negotiation, providing the negotiated price is higher than the highest rejected bid.

(Ord. 300 § 1, 2002; Ord. 166 (part), 1992; Ord. 84 § 2.20.070, 1978)

(Ord. No. 398, § 3, 6-6-2011)

2.20.080 Sales of personal property must be for cash.

Except where provided otherwise herein, sales of personal property must be for cash, certified check or cashier's check, except when such property is transferred to a governmental agency or traded in on the purchase of another item of personal property or traded for another article of similar value.

(Ord. 84 § 2.20.080, 1978)

2.20.090 Personal property--Trade-ins.

Grays Harbor County may trade in property belonging to the count or to any taxing district within the county when purchasing other property. If the county elects to trade in property, it shall include in its call for bids, if any, on the property to be purchased a notice that the county has for sale or trade-in property of a specified type, description and quantity which will be sold or traded in on the same day and hour that the bids on the property to be purchased are open. Any bidder may include in its offer to sell an offer to accept the designated county property in trade by setting forth in the bid the amount of such allowance.

In determining the lowest and best bid, the county shall consider the net cost to the county after trade-in allowances have been deducted. The county may accept the bid of any bidder without trade-in of the county property, but may not require any such bidder to purchase the county property without awarding the bidder the purchase contract. Nothing in this section shall bar anyone from making an offer for the purchase of the used equipment independent of a bid on the new equipment and the county shall consider such offers in relation to the trade-in allowances offered to determine the net best sale and purchase combination for the county. (Ord. 84 § 2.20.090, 1978)

2.20.100 Disposition of proceeds.

A. The county organizations responsible for conducting sales, leases or rentals of county property, including tax title property, shall be reimbursed for advertising, postage and selling fees, if any, from the proceeds of the sale: provided that, when tax title property is sold, such reimbursed costs shall include those costs incurred by the county at the time of the foreclosure sale. The balance of the proceeds shall be deposited by the county treasurer into the proper county fund or account, as directed by the board of county commissioners. Proceeds from the sale of used equipment must be credited to the fund from which the original purchase price was paid.

B. Upon receipt of sufficient consideration, the county treasurer shall execute the proper documents transferring title attested to by the county auditor. In no case shall the title be transferred until the purchase price has been fully paid.

C. The proceeds derived from the sale, lease, or other disposition or use of tax title property shall, following deductions as otherwise authorized in this chapter, or by law, be distributed in the same manner as general taxes collected in the year in which such proceeds are received by the county. (Ord. 321 § 1, 2004: Ord. 84 § 2.20.100, 1978)

2.20.110 Intergovernmental sales and leases.

Grays Harbor County may dispose of, lease, or rent county property or county tax title property to another governmental agency by negotiation, upon such terms as may be agreed on and for such consideration as may be determined by the board of county commissioners to be adequate; provided, that when sold to a governmental agency, tax title property may not be disposed of for less than the amount of unpaid taxes due at the time of foreclosure, also, provided that when sold to anyone other than a governmental agency, tax title property shall not be disposed of for less than the amount of unpaid taxes due at the time of foreclosure and costs incurred in the sale of such property, including costs incurred by the county at the time of the tax foreclosure sale; provided further, that before any lease or rent agreement for tax title property is executed, the terms thereof must be approved by resolution of the board of directors of the school district which would be entitled to share in the proceeds of the income received therefrom at the time the agreement is executed. (Ord. 321 § 2, 2004: Ord. 166 (part), 1992: Ord. 85 (part), 1978: Ord. 84 § 2.20.110, 1978)

2.20.120 Exchange of county property with other entities--Appraisal.

The board of county commissioners shall have authority to exchange parcels of county property and parcels of tax title property for real property of substantially the same market value with private parties or corporations by private negotiation and such properties received by the county in exchange may be held and

managed in the same manner as the lands conveyed in exchange by the county, and the proceeds from any subsequent sales or rentals of such land by the county shall be applied and distributed in the same manner as would have been done had such proceeds and income been received by the county for the lands conveyed in exchange by the county; provided, that before any such exchange is made the lands to be exchanged by the county and the lands to be received by the county shall be appraised by two appraisers appointed by the court for such purpose; provided further, that both appraisers agree that the land to be received by the county in such exchange is worth at least ninety (90) percent of the value of the land to be given by the county in such exchange.

(Ord. 84 § 2.20.120, 1978)

2.20.130 Cooperative agreements.

The county may enter into cooperative agreements with other governmental entities and private owners of timber and forest land. The cooperative agreement shall provide for coordinated forest management, including time, rate, and method of cutting timber and method of silvicultural practice on a sustained yield unit.

(Ord. 85 (part), 1978; Ord. 84 § 2.20.130, 1978)

2.20.140 Cooperative units.

The county will determine, define, and declare the establishment of sustained yield units, where necessary, comprising the land area to be covered by any cooperative agreement. The county will include in such area other lands as may be later acquired and included under a cooperative agreement.

(Ord. 84 § 2.20.140, 1978)

2.20.150 Limitations on agreements.

The county may agree that the cutting from combined national forests, state lands, county lands, county tax title lands, and private lands will be limited to the sustained yield capacity of these lands in the management unit as determined by the contracting parties. Cooperation with the contracting party or parties shall be contingent on limitation of production to a specified amount as determined by the contracting parties and compliance with the other conditions and requirements of the cooperative agreement.

(Ord. 84 § 2.20.150, 1978)

2.20.160 Easement over county lands during life of the agreement.

The contracting party or parties to a cooperative agreement shall enjoy the right of easement over county lands included under a cooperative agreement for railway, road, and other uses necessary to carry out the agreement. The easement shall be only for the life of the cooperative agreement and may be granted without charge with the provision that payment shall be made for all merchantable timber cut, removed, or damaged in the use of the easement. Payment for this purpose shall be based on the contract sumpage price for timber of like value and species. Payment shall be made within thirty (30) days from the date of cutting, removal, or damaging of the timber, or within thirty (30) days of the appraisal by the county, whichever date is later.

(Ord. 84 § 2.20.160, 1978)

2.20.170 Sale agreements.

During the period when any cooperative agreement is in effect, the timber on county lands and county tax title lands included in a sustained yield unit, may, from time to time, be sold as provided for elsewhere in this chapter and the laws of the state of Washington. Any such sale agreement shall, in addition, contain such provisions as are necessary to carry out the purpose of the sustained yield cooperative agreement and to afford adequate protection to the public interests involved.
(Ord. 84 § 2.20.170, 1978)

2.20.180 Resource management cost funds--Creation--Uses--Termination.

A. There is established a cumulative reserve fund to be designated cumulative reserve fund for resource management costs. Moneys accumulated in this fund are to be used to pay the costs and expenses necessarily incurred in managing and administering county property and making improvements thereon and in the making and administering of leases, sales, contracts, cooperative agreements, licenses, permits, easements, and rights-of-way in connection with county property. Uses of moneys from this fund may also include, but are not limited to, reseeded and replanting, fertilizing, insecticide application, and rodent, wildlife, and fire control.

B. There is established a cumulative reserve fund to be designated the cumulative reserve fund for tax title resource management costs. Moneys accumulated in this fund are to be used to pay the costs and expenses necessarily incurred in managing and administering tax title property and making improvements thereon and in the making and administering of leases, sales, contracts, cooperative agreements, licenses, permits, easements, and rights-of-way in connection with tax title property and also to reimburse the county for any sums expended by it for such purposes. Uses of moneys from this fund may also include but are not limited to, reseeded and replanting, fertilizing, insecticide application, and rodent, wildlife, and fire control.

C. The cumulative reserve fund for resource management costs and the cumulative reserve fund for tax title resource management costs shall accumulate moneys, be used, administered, and terminated pursuant to RCW 36.33.020, .030, and .040, as now enacted or subsequently amended; provided, that upon termination of the cumulative reserve fund for tax title resource management costs for any reason whatsoever the unexpanded moneys therein shall be distributed as follows:

1. If the fund is terminated because of the conveyance of all the county's tax title property to the state of Washington, the moneys remaining in the fund, less any sums due the county pursuant to law or this chapter or contributed by the county and unexpended, shall be delivered to the state of Washington to be used pursuant to law in the management and administration of such tax title properties;
2. If the fund is terminated because of the sale of all the county's tax title property, terminated by court order without a resulting conveyance to the state of Washington, or terminated because the purpose of the creation of the fund ceases to exist or is otherwise abandoned, the moneys in the fund, less the sums due the county or contributed by the county as provided for in subsection (C)(1) of this section, are to be treated as if they were the proceeds from the sale, during the year of such termination, of all the county's tax title property and all such property (land, timber, minerals, improvements, whatever) were of equal value per acre.

(Ord. 84 § 2.20.180, 1978)

2.20.190 Deduction from proceeds of transactions authorized--Limitations.

From time to time the board of county commissioners shall determine the amount deemed necessary to carry out the powers provided for in this chapter. To carry out those powers, the commissioners are authorized to expend county moneys in such amounts and in such manners, as they deem appropriate. The board of county commissioners shall also have the authority to, from time to time, deduct from the gross proceeds derived from each lease, sale, contract, license, permit, easement, and right-of-way issued by the county and affecting county property and tax title property those amounts deemed necessary to carry out the powers provided for in this chapter. The sums so deducted shall be deposited to the appropriate resource management cost fund to be held and disbursed as provided for in this chapter. In the case of tax title property, the deduction, as provided for herein, from the gross proceeds of any one transaction shall not exceed twenty-five (25) percent of such gross proceeds.

(Ord. 84 § 2.20.190, 1978)

2.20.200 Interest--Apportionment and disposition.

The county treasurer is authorized to invest moneys held in the resource management cost funds in the same manner and subject to the same restrictions as other county funds. Interest earned, less any authorized investment fees, shall remain in or be returned to the appropriate resource management cost fund.

(Ord. 84 § 2.20.200, 1978)

2.20.210 Authority to lease.

A. If it appears to be in the best interests of the county and the people thereof, the board of county commissioners may lease or rent any county real property its appurtenances.

B. Any lease or rental agreement executed under the authority provided herein creates a vested interest in a contract binding upon the county and the lessee.

C. The county may lease or rent tax title property to nongovernmental entities pursuant to the procedures and requirements set out in this chapter; provided, that before any lease or rent agreement for tax title property is executed the terms thereof must be approved by resolution of the board of directors of the school district which would be entitled to share in the proceeds of the income received therefrom at the time the agreement is executed.

D. The county may lease county real property and tax title real property for the purpose of prospecting for, developing and producing oil, liquid hydrocarbons and any gases. Any such lease shall be known as an "oil and gas lease." Any such lease shall contain terms and conditions shall be entered into as provided by Section 2.20.250 of this chapter, and shall comply with all other provisions of this ordinance as are consistent with Section 2.20.250.

(Ord. 102 (part), 1982; Ord. 84 § 2.20.210, 1978)

2.20.220 Manner of awarding lease.

A. Fair market rental value, as defined below, shall be the basis for all leases and rentals of county real property to nongovernmental entities and persons. All such rental and leases will be awarded upon the best terms and conditions available to the county.

B. "Fair market rental value" is defined as an amount in the competitive market that a well-informed and willing lessor who desires but is not required to lease, would accept, and which a well-informed and willing lessee who desires but is not required to lease, would pay for the temporary use of the premises, after due consideration of all the elements reasonably affect value.

C. Whenever authorizing a new lease, or the modification, extension or renewal of an existing lease, the board of county commissioners shall obtain an appraisal of the fair market rental value of such property, and such fair market rental value will serve as the basis for the new lease, modification, extension or renewal. The board of county commissioners shall have the authority to determine whether the lease, modification, extension or renewal is to be awarded by competitive bidding or by negotiation with interested parties without bidding.

D. Whenever the board of county commissioners elects to proceed with a lease or rental by negotiation, they shall give notice of their intention by publishing a notice in a legal newspaper at least once a week for two weeks. The notice so published shall adequately describe the property to be leased, and shall contain a notice that a copy of the lease is available for public inspection at the commissioners' office.

E. Whenever the board of county commissioners elects to lease property pursuant to public bidding, they shall advertise to the extent they deem necessary to effect an advantageous lease. Such advertising shall include publishing a notice in a legal newspaper at least once a week for three consecutive weeks, the last notice to appear no more than five days prior to the date of the auction or bid opening. When a lease of county real property is awarded through competitive bidding, the lease shall be awarded to the highest responsible bidder; provided, that whenever there is reason to believe that the highest acceptable bid is not the best rental obtainable, all bids may be rejected and the board of county commissioners may call for new bids or enter into direct negotiations to achieve the best possible rental. In determining highest responsible bidder, in addition to rental, the following elements shall be given consideration:

1. The character, integrity, and reputation of the bidder;
2. The previous and existing compliance by the bidder with the terms of other leases of county real property;
3. Such other information as may be deemed relevant to the decision to award the lease.

(Ord. 84 § 2.20.220, 1978)

2.20.230 Application to lease.

A. Applications to lease county real property shall be submitted to the board of county commissioners.

B. The right is reserved by the board of county commissioners to require the deposit of a reasonable amount to accompany all applications or bids to lease or rent county real property. If a deposit is required, all deposits upon same lease shall be of equal amount. The deposit shall be in the form of a certified check or cashier's check, or may be paid in cash. In case the lands applied for are leased at the time of application, the deposit shall be returned to the applicant. If the party making application fails or refuses to comply with the terms of his or her application and to execute the lease, the deposit shall be forfeited to the county, the deposit

shall be placed in the current expense fund.
(Ord. 84 § 2.20.230, 1978)

2.20.240 Lease terms.

The county may lease real property for a term of years and upon such terms and conditions as may be deemed in the best interests of the public and the county. No lease shall be for a longer term in any one instance than ten (10) years; provided, that when the board of county commissioners determines it to be in the best public interest, real property necessary to the support or expansion of an adjacent facility may be leased to the lessee or the owner of the adjacent facility for a term to expire simultaneously with the term of the lease of the adjacent facility but not to exceed thirty-five (35) years; provided further, that when the board of county commissioners determines it to be in the best public interest, where property to be leased is improved or is to be improved, and the value of the improvement is or will be at least equal to the value of the property for a term not to exceed thirty-five (35) years; provided further, that where the property to be leased is to be used for a major airport, industrial or commercial site, requiring extensive improvements, the county may lease such property for a term equal to the estimated useful life of the improvements but not to exceed fifty (50) years.
(Ord. 84 § 2.20.240, 1978)

2.20.250 Oil and gas leases.

A. Qualification of Applications. Any person or corporation, organized and existing under and by virtue of the laws of any state or territory of the United States, may apply for and hold an oil and gas lease from the county. Applications for an oil and gas lease shall comply with Section 2.20.230. An application to renew a productive lease at the end of the first twenty (20) year period shall be submitted to the board of county commissioners at least ninety (90) days, but not more than six months, prior to the expiration of its term.

B. Public Bidding--Bonus Bids--Highest Responsible Bidder. Except as otherwise provided herein, all oil and gas leases will be issued only after competitive offers received pursuant to public bidding. Prior to public bidding, the board of county commissioners shall advertise to the extent they deem necessary to effect an advantageous lease. Such advertising shall include publishing a notice in a legal newspaper at least once a week for three consecutive weeks, the last notice to appear no more than five days prior to the date set for public bidding. The lease shall be awarded to the highest responsible bidder; however, in the event a cash bonus is not offered a lease may be awarded to the applicant for the minimum acceptable bid or withdrawn until further notice. That whenever there is reason to believe that the highest acceptable bonus bid is not the best obtainable, all bids may be rejected and the board of county commissioners may call for new bids or enter into direct negotiations to achieve the best possible bonus for the lease. In determining the "highest responsible bidder," in addition to the amount bid, the following elements shall be given consideration: (1) the character, integrity, and reputation of the bidder; (2) the previous and existing compliance by the bidder with the terms of other leases of county real property; (3) whether the bidder intends to hold the oil and gas lease for speculative purposes rather than to engage in exploration for and production of oil and gas; (4) such other information as may be deemed relevant.

C. Deposit Required--Title Reports--Liquidated Damages. The board of county commissioners may require as a condition of awarding a lease that the successful bidder deliver a certified check to the county in an amount of not more than ten (10) percent of the amount bid within ten (10) days following the date the public bidding was held. The board of county commissioners may require the successful bidder to run title reports at

his or her own expense on any and all property intended to be a part of the lease. A copy of all title reports shall be supplied to and become the property of Grays Harbor County. In the event the successful bidder should fail to run required title reports and deliver the same to Grays Harbor County, or fail to enter into a lease with the county for any other reason, any amounts on deposit with the county will be retained by the county as liquidated damages.

D. Minimum Rental and Royalty. The board of county commissioners shall require as a prerequisite to the issuing of any lease a rental as set by the board of county commissioners but not less than one dollar and twenty-five cents (\$1.25) per acre for the first year of such lease, payable in advance to the county at the time the lease is executed and a like rental annually in advance thereafter so long as such lease remains in force; provided, that such rental shall cease at such time as royalty accrues to the county from production from such lease. All oil and gas leases issued by the county shall be upon a royalty of not less than twelve and one-half (12.5) percent of the gross production of all oil, liquid hydrocarbons or gas produced and saved from the lands covered by such lease or a minimum royalty of ten dollars (\$10.00) per acre, whichever is greater.

E. Compliance with Applicable Law. All operations shall be conducted subject to compliance with the oil and gas conservation act of 1951 (Chapter 78.52 RCW) the provisions of this chapter as now or hereafter amended, and all other applicable laws.

F. Surface Rights--Compensation--Surety Bond. No lessee shall commence any operation upon lands covered by his or her lease until such lessee has provided for compensation to owners of private rights therein, including surface rights, according to law, or in lieu thereof, filed a surety bond with the county in an amount sufficient in the opinion of the board of county commissioners to cover such compensation until the amount of compensation is determined by agreement, arbitration or judicial decision and has provided for compensation to Grays Harbor County for damage to the surface rights of the county.

G. Continuous Drilling. All leases may provide that if oil, liquid hydrocarbons or gas are not encountered on or before the end of the initial five-year term, the lease shall not terminate if the lessee is then prosecuting drilling operations on the leased lands with due diligence, in which event the same shall remain in force so long as lessee shall keep one string of tools in operation on the leased lands, allowing not to exceed sixty (60) days between completion of one well and the commencement of the next until such oil, liquid hydrocarbons or gas is encountered in quantities deeming paying quantities by lessee. All leases may further provide that if oil, liquid hydrocarbons or gas in paying quantities shall have been discovered on the lease lands prior to the expiration of the initial five-year term, than in the event at any time after the expiration of the initial five-year term production on the leased land shall cease for any cause, the lease shall not terminate provided lessee resumes operations for the drilling of a well or the restoration of production within sixty (60) days from such cessation, and that the lease shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues.

H. Rights Upon Surrender. The lease may provide that the lessee shall have the option of surrendering his or her lease as to any or all portions or portion of the land covered thereby at any time and shall be relieved of all liability thereunder with respect to the land so surrendered except for monetary payments theretofore accrued and except for physical damage to the premises embraced by his or her lease which have been occasioned by his or her operations.

I. Pooling and Unitization. The lease may provide for pooling and unitization of the acreage

covered by the lease with lands not covered by the lease, and for the allocation of royalties under such pooling or unitization agreements.

J. Other Lease Terms. The board of county commissioners may insert in any lease issued under the provisions of this chapter such terms and conditions as it deems necessary for the protection of the rights of the county, the lessee and the owners of the surface of the leased lands which are not in conflict with the provisions of this chapter, as now or hereafter amended.

K. Right of Inspection. The board of county commissioners of Grays Harbor County, or any commissioner or authorized representative thereof, may at all times examine lands covered by an oil and gas lease from the county, and inspect the work done and all progress thereon, and the production therefrom, and may inspect the books kept by the lessee in relation to the leased lands to ascertain the production, the amount of oil, liquid hydrocarbons or gas shipped therefrom and the performance of the lessee under the terms of the lease.

L. Cancellation--Notice Required. The board of county commissioners is hereby authorized to cancel any lease issued as provided herein for the nonpayment of rentals or royalties or nonperformance by the lessee of any provision or requirement of the lease, or for any violation by the lessee of the provisions of this chapter as now or hereafter amended; provided, that before any such cancellation shall be made, the board of county commissioners shall mail to the lessee by registered mail, addressed to the post office address of such lessee shown by the records of the board of county commissioners, a notice of intention to cancel such lease specifying the default for which the lease is subject to cancellation. If the lessee shall, within thirty (30) days after the mailing of the notice to the lessee, commence and thereafter diligently and in good faith prosecute the remedying of the default specified in such notice, that no cancellation of the lease shall be entered by the board. Otherwise, the cancellation shall be made and all rights of the lessee under the lease shall automatically terminate, except that lessee shall retain the right to continue its possession and operation of any well or wells in regard to which lessee is not in default; provided further, that failure to pay rental and royalty required under any lease within the time prescribed therein shall automatically and without notice work a forfeiture of such leases and of all rights thereunder.

M. Offsetting Wells. A lease may contain such terms, conditions, and provisions as will protect the interests of the county with reference to the spacing of wells for the purpose of offsetting any wells on privately owned lands.

N. Assignment and Subleasing--Written Approval of Board. Any oil and gas lease issued under this chapter may be assigned or subleased as to all or part of the acreage included therein only with the prior written approval of the board of county commissioners. Upon approval of any assignment or sublease, the assignee or sublessee shall be bound by the terms of the lease to the same extent as if such assignee or sublessee were the original lessee, any conditions in the assignment or sublease to the contrary notwithstanding. Any partial assignment of any lease shall segregate the assigned and retained portions thereof, and upon written approval of the board of county commissioners of such assignment, the assignor shall be released and discharged from all obligations thereafter accruing with respect to the assigned lands.

(Ord. 353 § 1 (part), 2006)

2.28.020 Application of this chapter.

A. The provisions of this chapter are intended for the administrative and procedural guidance of county officers and employees and are further expressions of the public policy of Grays Harbor County. Such provisions are not intended to confer an independent cause of action or claim for relief cognizable in the courts of the state of Washington or the United States of America to any third parties, and these provisions shall not be used as the basis for a lawsuit in any court of competent jurisdiction challenging the award of any contract by Grays Harbor County.

B. This chapter is enacted for the benefit of the general public. Any rules, regulations and policies adopted by the public works department pursuant to this chapter and the actions of county officials and employees in implementing this chapter are performed for the benefit of the general public. The decision of the board of county commissioners to award any bid or public works contract, which may be construed as subject to this chapter, is final and conclusive.

(Ord. 353 § 1 (part), 2006)

2.28.030 Apprentices required on public works contracts.

A. All contracts for public works in which the cost is estimated to exceed five hundred thousand dollars (\$500,000.00) or more, shall require that no less than fifteen (15) percent of the labor hours be performed by state indentured apprentices.

B. The director shall include provisions to allow enforcement of the provisions contained in this chapter in all packages of bid documents and published calls for bids. Such contractual provisions may include liquid damages calculated to reimburse the county for the contractor's or subcontractor's breach of these performance requirements.

(Ord. 353 § 1 (part), 2006)

2.28.040 Proof of compliance and enforcement.

A. All firms, corporations, and persons subject to the provisions of this chapter shall submit, in the form and manner as the county may require in the issuance of specifications for public works projects, proof and/or documentation demonstrating that the firm, corporation or person has or will comply with this chapter.

B. By entering into an agreement to provide services or materials for a county public work, all firms, corporations and persons subject to the provisions of this chapter agree to submit to the county, upon request, all information, reports and policies relevant to the enforcement of applicable provisions of this chapter. Prime contractors shall incorporate this provision into all subcontracts in which a subcontractor is to perform services on a county public work project.

C. Proof of documentation of compliance, including the apprentice's state registration number, must be submitted no later than the time stated in the county's published specifications for a public work project. In no event will any firm, corporation or person be considered for a contract involving a public work project subject to the requirements of this chapter until such time as the proof or documentation of compliance has been submitted to the county.

D. The director shall review the contractor's and all subcontractor's employment practices during performance of the work to verify compliance with apprentice utilization requirements. On-site visits may be conducted as deemed necessary, in the sole judgment of the director, to verify compliance. The contractor and subcontractors shall not deny the county the right to interview its employees, provided that the director shall make reasonable efforts to coordinate interviews with employers.

E. The failure by a contractor to comply with the apprentice utilization requirements of this chapter shall be deemed a breach of contract, including liquidated damages. The director is authorized to wave or reduce the apprenticeship participation requirements on contracts subject to this chapter if the director determines that an inadequate number of apprentices are available to meet the required percentage or that the small size of the workforce on a particular project makes compliance impracticable.
(Ord. 353 § 1 (part), 2006)

2.28.070 Savings clause.

Should any part of, or any provision herein contained be rendered or declared invalid by reason of any existing or subsequently enacted legislation, or by any decree of a court of competent jurisdiction, such invalidation of such part or portion of this agreement shall not invalidate the remaining portions thereof. (Ord. 370 § 13, 2008)

2.32.140 Electronic information.

For purposes of this chapter two classifications of electronic information are recognized: electronic records and custom electronic products.

- A. Electronic Records. The county produces and maintains data in electronic records to maximize efficiency in fulfilling its basic public service functions. These electronic records relate to the operation and conduct of county government and typically include financial data, property records, property assessment records, filed documents, maps, etc.
1. Electronic records are public records subject to disclosure under the Public Records Act and this chapter, unless exempt from disclosure under state or federal law or the request is for proprietary data which the county has obtained under a licensing agreement that does not permit disclosure to third parties.
 2. At the option of the public records officer, electronic records may be printed and provided in paper format. If the electronic record is large and/or not capable of being printed in an understandable format, then the electronic record may be provided in the digital format in which the record is maintained by the county. The county does not have

the obligation to convert an electronic record to a digital format that is different than the format maintained by the county.

3. Fees for providing electronic records in electronic form shall be based on the actual cost of the media used to provide the records. Overhead for information system acquisition and maintenance shall not be included in such fees.
 4. The county does not warrant or in any way guarantee the accuracy or completeness of electronic records. Requesters receiving electronic records shall be required to sign an acknowledgement of such disclaimer.
- B. Custom Electronic Products. Custom electronic products do not exist at the time of a request. These products must be created by performing any of the following: acquiring data, running custom queries, programming software, testing models, reformatting data, or configuring the product in order to respond to a specific request. Custom electronic products are not public records subject to disclosure.
1. All requests for custom electronic products will be made to the appropriate elected official or department head. If more than one office or department is involved, the request shall be made to the Management Information Services administrator, who shall refer requests to the appropriate offices and/or departments and provide a coordinated response.
 2. A request may be denied for any of the following reasons:
 - a. The private sector has the ability to produce the requested product at a competitive price;
 - b. The existing workload of the affected staff is such that the requested work cannot be accommodated;
 - c. The request is for information that is exempt or prohibited from disclosure or otherwise confidential under state or federal law;
 - d. The request is for proprietary data which the county has legally obtained under a license agreement that prohibits disclosure, distribution or publication; or
 - e. The county does not have the hardware, software or personnel resources to respond to the request.
 3. All fees shall be estimated in writing prior to providing the custom electronic product. Payment of estimated fees must be received before any work will be performed. Fees shall consist of the following:
 - a. Design and processing costs to the county, including any charge-back fees paid to another public agency or service bureau;

- b. Actual costs of salary and benefits for the employee or employees required for consulting and/or producing the custom electronic product;
 - c. Reasonable overhead charges;
 - d. Delivery charges;
 - e. Actual costs for magnetic tapes, computer paper, microfiche, disks, and/or other media used to provide the custom electronic product;
 - f. Any consulting fee, subcontractor fee or service cost incurred as a result of obtaining secondary services to respond to the request; and
 - g. A reasonable charge to defray operational hardware and software acquisition, maintenance and replacement costs.
4. A requester may appeal a denial or the fees required for production of a custom electronic product to the board of county commissioners. The appeal shall be made in writing within ten (10) business days after the requester's receipt of a written denial or a statement of the fees required. The appeal must state with specificity the relief sought and the reasons supporting the relief. The board shall consider the appeal at a public hearing within twenty (20) days after the appeal is received. The offices and departments affected by the appeal shall have an opportunity to respond to the appeal in writing. The requester and the affected offices and departments shall be given notice of the public hearing at least forty-eight (48) hours in advance and shall have a right to make oral arguments to the board. All deliberations shall be public unless information discussed is exempt or prohibited from disclosure or otherwise confidential under state or federal law. The decision of the board shall be in writing and shall be issued within twenty (20) days after the public hearing.
5. A written agreement with the requester shall be required prior to any work on and delivery of a custom electronic product. The written agreement shall, at a minimum, include:
 - a. A description of the custom electronic product to be produced;
 - b. All fees;
 - c. Whether the custom electronic product will be updated and how often;
 - d. A warranty disclaimer, as approved by the prosecuting attorney; and
 - e. Any other terms and conditions required by the prosecuting attorney.
6. The county will comply with the terms of all legally acquired software licenses,

copyrighted materials and license agreements.

7. The county may at any time enter into an agreement with a public or private entity for sharing in the production costs of a custom electronic product.
8. Once a custom electronic product is produced it becomes a public record subject to the Public Records Act. The county reserves the right to purge the product from its public records in accordance with applicable laws.
