

Building Permit Application Review

Your application will go through five basic steps before you receive a permit to begin construction

➤ **Step 1: Environmental Health**

Review of water and septic systems

➤ **Step 2: Public Works**

Review of road access and site drainage

➤ **Step 3: Fire Marshal**

Review of emergency vehicle access to your project

➤ **Step 4: Planning**

Review of zoning compliance, such as building setbacks, building height, land use, and environmental regulations including shoreline protection

➤ **Step 5: Building**

Upon the completion of Steps 1-4, the review and approval of your drawings and plans

Please note that your application must receive these approvals before Grays Harbor County can issue a building permit to begin construction. Please call our Permit Coordinator at (360) 249-5579 at any time to check which step your application is in the review process.

Thank you.
